DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Independent claim 24 of applicant's 10/16/2007 Amendment is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including a paper guide slidably supported on a knock-up plate, a second portion of the knock-up plate is an open portion so that movement of a second finger device does not interfere with the knock-up plate, a knock-up plate raising/lowering portion moves in a first direction, the paper guide moves in a second direction perpendicular to the first direction, a first finger device moves in the first direction, and the second finger device moves in the first and second directions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
